

# PowerPAK Mini Filtration System

The **PowerPAK Mini Filtration System** is your personal mini utility company. This renewable power system can provide you **POWER, LIGHT, and Fresh Filtered WATER.**

**Renewable  
Power Source**

**Mobile Water Pump  
(Flow Rate: 44GPH)**

**Hollow Fiber  
Membrane Filter**

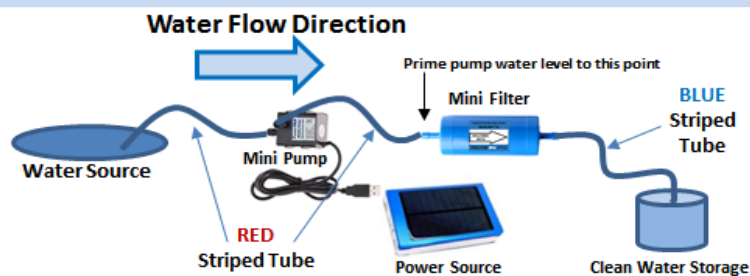

The system features:

**PowerPAK MOVER** : a 10,000mah battery, multiple USB ports, and LED lamp light. The unit can be completely charged via the **BUILT-IN solar panel.**

**PowerPAK Mini Pump**: a low voltage mini pump built specially for the MOVER battery pack that can move 44 gallons per hour unfiltered **or 1 gallon of filtered water every 5 minutes.**

**Mini Filter**: The 0.1 MICRON Hollow Fiber Membrane Filter weighs 3 ounces, fits in the palm of your hand, and provides 0.1 micron filtration that removes 99.99999% of all bacteria, such as salmonella, cholera and E.coli, and all protozoa (such as giardia and cryptosporidium) Rated to 100,000 filtered gallons of water

## HOW IT WORKS

**GREAT** for camping, hiking, survival training, and emergency situations. The complete kit comes in a water protective clear case and weighs only 1.2lbs.
